But as is suggested by some, that these commissioners, as they are styled, are English cominitioners to run the line on the part of Great Britain , as the resolves of the United States on the part of our Government. Admit it -it. is appurent then, that Great Britain acts with a wors commendable promptitude than his demooratic highness, the President And what shall we say too of John Fairfield and his party advisers, for not completing the intentions of the have long since published their commentary, and explanatory notes on the spirit, design and haning of those resolves; why not carry them into effect? Come gentlemen, you are not compelled to wait until September before you move in this matter, as was Governor Kent last year, and the people in a matter of this importance, do not expect you to be backward on account of hot weather, or a few sly winks from Washing ton. Where, pray, is the redoublable Major I avenualer he ought to be pricking up the Covernor with a long pole, to take sword in hand and ron the line, according to his own recommendation Is there none so poor as to do reverence to their former opinions and recammendations? Are the laco leaders from the Governor downwards ashamed to father their own words, or are they under the influence that caused so rapid a retreat of a whiskered official tion, sent down for concurrence last winter? We points of government, but can we coak a glance have spoken to my master; I'm only the jour over our lavored land and not exult at the name of American? Does not our hearts leap within us when we contrast our situation with that of the subjects of despotic governments? All monarchies are more or less so. All the comforts of life are within our teach, and indeed to the industrious and persevering most of its eleganoies There are no persons poor in these United States but those who choose to be so. And of those who are reduced by sickness and become objects of chargly, not one in ten but what might have provided against such calamity by prudent management while in health. It is really a matter of currous speculation to think what would be the change and how it would be berne, if our country were suddealy to be brought under a government like that of Great British 121 pity those who never felt a glow of patriot-

It is surprising with how much indifference some people can view the places connected with Revolutionary history , but there are instances in which eyen children are moved. I recullect the first time I visited Philadelphia, in walking up Chesnut street, a little lad of only seven years of age pointed out to me the State House, from the bilcony of which Jefferson read the Declaration of Independence; and said the littie fellow, his eyes sparking with animation, the very bell too, is there which struck the first note for liberty What a remark for such a child

"It was late when I returned, and my little guide was not with nie, but I could not furbear to look into the house, which though now solitary sloud most invitingly open I looked into the room where the immortal signers of the declaration of Independence set their seal to that instrument. It was untenanted and I ventured in lis specious vaulted reof, and the antique tachion of the heavy moulding, spoke of ancient tomes The last rays of an intensely hot sun yet imgered on the crimson curtains, and reflected i a mellow light upon the walls and upon the long | With a heart swelling with emotion, I stood it was then that in imagination, the shades of There is a manifest impropriety in ordering me. VALUABLE CERTIFICATES. EVAN'S CAMOMILE AND APERIENT PILLS. THE DIFFERENCE.

T cannot be denied that whilst many medicines which are recommended to the public, have not RESOLVE proposing an amendment to the Constitution of the State.

RESOLVED, Two thirds of both Houses of the others which it would be great impustice indeed and
Legislature concurring, that the Constitution of suicidal prejudice to involve untried, in a common this State be amended by striking out the fourth section of the sixth article thereof, and substituting dorsed with all the great names that have adorned length purgatives, the suppression of some habitual content of the modes of the mo the annals of the medical profession, and warranted by the seal and signature of long and uniform success, its proprietor makes no unreasonable demand in abdomen, is frequent cause.

> whilst no medical authority in existence condemns conversation. The bowels (if costive) being care—it, every medical practitioner that is acqualated fully regulated by the occasional use of a mild apewith it, freely acknowledges as pre-eminent virtues riceit. We know nothing better calculated to obtain and that the latter should do so in opposition to their this end, than Dr. Wm. Evons' Aperient Pills—be personal interests, must be attributed either totheir ander and love of truth, or to their unwillingness to fly in the fare of all observation, and the restimo-

ny of thousands. Dr. W. Evans does not pretend that his Camomile Tonic Pills will cure all diseases. He frankly and conscientiously admits that they will not. He lays no claim to the discovery of the "Philosopher's Stane," and wishes nobody to believe that he wills the "Ellaic of Life," but he does say, and he does believe, and he can prove, that in debility and im paired constitution; in Nervous diseases of all kinds; in weakness of the digretive organs, in incipient consumptions, whether of the lungs or the liver; in the dreadful debility occasioned by the use of purgatives; in palsy, rheumature, (more especimales of relaxed nerves; in every case of delirium tremens, or that discuse which is blought on by intemperance; in the wretched horkors of horly and mind which accrue from occasional inebrity; of appetite, langor, melancholy, pains in the head, imbs, or side; in corrupt sallow, and uncomely complexion, caused by the bad state of the fluids in all these cases, and in others mentioned in the bills of directions given with his medicines, HE DOZS
SAY, that the Camomile Tonic Pills, interchangedoccasionally with his Aperient Family Pills, the best known) which are sold with them, will effect immediate relief; and if used but for a fair period of trial a perfect cure. This much is placed herough a doubt by daily testimonies which would be given on oath, and for this much Dr. W' Evans can conscieniously request confidence. He therefore need only add that his Camomile Tonic Pills, together with his excellent Family Aporient Pills, can be obtain ed wholesale or retail, at No. 7, Division street near Chall am sq lare, N. York, and his authorized agents.

. Other and more conclusive demonstrations of the efficacy of Dr. Evans' Camomila Preparation and Aperient Medicines, are submitted by the following portant and extraordinary cures effected by their highly medicinal qualities; all of which may be seen at Dr. Wm. Dr. Win Erans -Extract of a letter from Jonas Snyder, Postmaster, Knoxville, Pa. to Dr. Wm. Evans. Among several cases "an elderly lady who had been 25 yrs. afflicted with nervous hypochondria, debility, &c. that for the last 3 years she constantly received medica! aid from a respectable physician, but the pressure and pain on her heart and breast, and especial-ly in her left side, remained immovable attended at long intervals with weakness in her head and on her mind keeping her discouraged to undertake any bing. In May she commenced using Dr W. Evans' Camomile and Family Aperient Pills, according to the direction accompanying them. A'reaction took place; the pains and pressure in her body was re-moved, her mind became clear and strong; her spirits perfectly good, and up to this fine is in albrespecis restored to health, which for the last 10 years she has not enjoyed."

JONAS SNYDER. Sept 2, 1836 On Low Spinits. Low spirits is a certain state of the mind, accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined. Ancient writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

One very common objection urged by some who by the gross, dezen or single-hottle; by the following but partially understand the principle of curing disease by purgation as promolegated by the North American College of Health, is that although reiner and purging will cure disease; yet that the repeated exercising of those edgans will injure or destroy their tone. Those who gaines objections are torse in most all the towns in Maines. stroy their tone. Those who raise objections appear to forget that purging is an natural to the bow-els as walking is to the feet or Tabor to the hands; and like every other function must be duly exercis-

ed in order to retain their energies.

How persons can comprehend the action of vog etable purgatives; by what mysterious process the blood is by them stime! niced to deposite its impurities into the howels; or how those organit are excited to evacuate the corrupt humors from the hodys all cun understand when they experience relief. The gentlemen who compose the North American ge of fleahh would therefore carnesly invite all who are suffering from disease of any kind to make a trial of the Indian Vegetable Pills. They beg leave to assure the American Public that said Indian Pilt are a purgative so justly balanced, that they may betaken at all times and under all circumstances with perfect safety, and no dose, however small, but will afford some relief, and no quantity, however large, (if it be such as is required to open the howels) can possibly injure.

if persevered with, will always effect a core.
In using the Indian Purgative, (or Indian Vegetable
Pills j) no cure is necessary, except in taking such as shull
operate freely upon the bowels. If this effect is obtained operate freely upon the bowels. If this effect is obtained every other function will be duly performed. The skin and kidneys will each be etimulated to discharge their portion of impurities; and the energy, impured by this 'ex-traordinary medicine to the blood, will enable that 'finid to diseages and deposite its. inpure particles into the bowels; from whence they will be carried off by the reg-ular action of these organs.

One great advantage, possessed by the Indian Pills over every other medicino is, that us they cure disease upon natural principles and suit all complaints; they are always the right medicine to be administered, and,

This assertion may startle the reader and appear to him about and ridiculous, yet nevertheless it is true. What is disease? When properly considered it is only an effort of nature to expel from the body some offending cause. We are so constituted that there is a constant tendency. In nature to expel or throw off whatsopver is injurious to health. This is done by urine, atool, sweat, expectoration, vomit, &c. These are the sewers of the body-throw which all the profess and done yed matter is excised off; and so long six they are kept open, so long will the body io. 6 Hammond; and ...
